ABOUT ME

I am a third-year information technology student at Birla institute of technology, Mesra, with a passion for software development and problem-solving.

EXPERIENCE

Frontend intern at Yhills edtech pvt ltd. 9/2022-10/2022

- Worked on the development of multiple webpages.
- Collaborated with colleagues on the designing of dashboard.

PROJECTS

Todo web application 06/2023

- Designed and developed a web application for managing personal tasks using **Spring Boot, Java, Hibernate, React** and **Bootstrap**.
- Implemented CRUD operations for creating, updating and deleting tasks using **RESTful APIs** and **MySQL** database.
- Implemented user authentication using **JWT**.
- Deployed the project at **AWS**.

Apple Clone 05/2023

A frontend Apple clone website that has the appearance and style of the official Apple website. The website was created using **HTML, CSS, Bootstrap, JavaScript**.

- implemented grid layout with big blocks of images and text that highlight the features and benefits of Apple products.
- designed an absolute positioned navigation bar with links to different sections and products.
